

Milliman AccuRate Fleet™

Driving a better Commercial Auto book

Problems

Prebuilt solution

AccuRate Fleet is a telematics score for pricing and underwriting commercial auto policies.

Accurate pricing ready to go

Use our extensive commercial telematics data to get accurate pricing that is approved by regulators.

Real time underwriting

On-Board Diagnostic device measures driving behavior and calculates a score predicting relative crash risk for a driver, vehicle, or fleet.

More than providing insurance coverage

Options to leverage your data with Azuga® app to improve your client's fleet safety, reliability, and maintenance costs.

Benefits

Improve profitability

Better match price to risk and avoid adverse selection.
Improve retention of customers with safer driving habits.

Reduce costs and delays

Get to market faster with lower development costs
and a ready-to-use score.

Lower regulatory risk

Reduce risk of regulatory delays by using a pre-filed score.

Better fleet management

Add to client value with Azuga* fleet management capabilities.
Clients can gain efficiency and cost reductions through GPS
tracking, vehicle diagnostics, and optimized operations.

Differentiators

Commercial auto focus

Unlike existing filed telematics scores, ours are developed on commercial auto data.

Approved by regulators

Our commercial auto telematics scores have been reviewed and approved by state insurance regulators for use in ratemaking.

Trusted data

Scores are developed by Milliman experts using over a billion miles of commercial auto driving data.

Tailored

We won't just give you a one-size fits all answer. Our experts will work with you to make sure the solution fits your company and risk culture.

* Our Azuga partner provides comprehensive fleet management app to 4000 customers and data from 100,000's vehicles.

Global reach, local expertise

Thanks to the vision of our founders, and innovations by succeeding generations of principals, Milliman remains a driving force in the industry we helped define nearly 70 years ago.
